EDUCATION

Bachelor of Science in Computer Science and Engineering(CSE)

2018-2023

University of Information
Technology and Sciences(UTS)

EXPERTISE

React
Redux toolkit
JavaScript
HTML5
Tailwind CSS
GitHub

LANGUAGE

English
Bangla

ABOUT ME

In order to provide myself the chance to develop and use my knowledge, skills, and abilities as well as to acquire and improve my work experience, I am pursuing a hard career with a determined mentality.

PROJECTS

ReactReduxCart [Link](#)

This is an online store where customers may get further information as well as a list of foods from other retailers. After that, consumers can purchase the items by adding any quantity to their cart. To finish it, I utilized React and Redux, and I used an Express.js REST API Server for the store's data and data server.

FireBase-Email-ContactList [Link](#)

This is a straightforward online application for a contact list that uses FireBase and React to create new contacts by asking for an email address and name. Any contact can be easily added, edited, and deleted by users.

Play-With-Dice [Link](#)

A dice game with a slight twist that deviates from standard dice game rules was created using React. It is based on chance and an entertaining, user-friendly game.

WeatherApp [Link](#)

I created a straightforward weather forecasting app with React. Any city name can be searched in the search bar, and the relevant information about that city's current weather will show up on the screen.

EXTRACURRICULAR ACTIVITIES

I play the Tabla and Cajon in various cultural events and gatherings
