English

Bangla

ABOUT ME

In order to provide myself the chance to develop and use my knowledge, skills, and abilities as well as to acquire and improve my work experience, I am pursuing a hard career with a determined mentality.

PROJECTS

Khawa-Dawa   Visit

This is an online store where customers may get further information as well as a list of foods from other retailers. After that, consumers can purchase the items by adding any quantity to their cart. To finish it, I utilized React and Redux, and I used an Express.js REST API Server for the store's data and data server.

FootGear-Hub   Visit

This is an online store featuring a selection of shoes from well-known brands. In order to finish this project, I used React and Redux. The main purpose of this website is to demonstrate how filtering and shorting operate.

Fortune-Roll   Visit

A dice game with a slight twist that deviates from standard dice game rules was created using React. It is based on chance and an entertaining, user-friendly game.

ClimeScanner   Visit

I created a straightforward weather forecasting app with React. Any city name can be searched in the search bar, and the relevant information about that city's current weather will show up on the screen.

EXTRACURRICULAR ACTIVITIES

I play the Tabla and Cajon in various cultural events and gatherings
